Preface

This is the Fifth edition of CPWD Pocket size Telephone Directory. CPWD book size telephone directory 2007 was printed in November 2007. Since then, a number of changes have taken place. This pocket size directory is an effort to bridge the gap between two editions of CPWD book size directories incorporating latest information.

This pocket size directory incorporates incumbency upto the rank of Executive Engineer of all wings viz. Civil, Electrical, Architectural and Horticulture. It also contains the telephone numbers of CPWD Officers on deputation to other departments, important numbers relating to Ministry of Urban Development, other important telephone numbers and telephone numbers & addresses of retired officers of CPWD upto the rank of CE.

I acknowledge the efforts made by officers and staff of Border Fencing Zone who were instrumental in collecting and updating of Data in such a short span of time.

I also owe my thanks to Shri Ajay Kumar Mittal of M/s Kshitiz Enterprises for compiling the data and publishing the directory in an effective and attractive shape.

I would like to invite your valuable suggestions/comments for further improvement in the directory to make it more attractive and user friendly.

R.S. Prasad
CE (BFZ)

INDEX

| | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|

The important thing is not to stop questioning.

Curiosity has its own reasons for existing.

**One cannot help but be in awe when
he contemplates the mysteries of eternity, of life,
of the marvelous structure of reality.**

**It is enough if one tries to comprehend
a little of this mystery every day.**

Never lose a holy curiosity.

Albert Einstein

**Every man is the architect of his own life.
He builds it just the way he wants it.
However, after he has built what he wants,
he sometimes decides that
he doesn't like what he has built
and looks for someone or something to blame
instead of changing himself.**

Happiness is always a by-product. It is probably a matter of temperament, and for anything I know it may be glandular. But it is not something that can be demanded from life, and if you are not happy you had better stop worrying about it and see what treasures you can pluck from your own brand of unhappiness.

The engineer is the key figure in the material progress of the world. It is his engineering that makes a reality of the potential value of science by translating scientific knowledge into tools, resources, energy and labor to bring them into the service of man ... To make contributions of this kind the engineer requires the imagination to visualize the needs of society and to appreciate what is possible as well as the technological and broad social age understanding to bring his vision to reality.

Engineering is a great profession. There is the satisfaction of watching a figment of the imagination emerge through the aid of science to a plan on paper. Then it moves to realisation in stone or metal or energy. Then it brings homes to men or women. Then it elevates the standard of living and adds to the comforts of life. This is the engineer's high privilege.

My mother drew a distinction between achievement and success. She said that 'achievement is the knowledge that you have studied and worked hard and done the best that is in you. Success is being praised by others, and that's nice, too, but not as important or satisfying. Always aim for achievement and forget about success.'

Helen Hayes

Slow down and enjoy life.
It's not only the scenery you miss by going too fast
- you also miss the sense of where you are going and why.

Eddie Cantor

Morning doesn't mean
getting up & working again,
it rather means
God loves you so much
to let you live & see another day.
Good Morning
