CIRCULAR

April

Sub: Strict Compliance with timelines for sending required reports and records to the Vigilance Unit.

From time to time detailed directions have been issued emphasising the importance of sending required reports and records to the Vigilance Unit within the stipulated time schedules for speedy disposal of Vigilance cases.

On this subject the latest circular was issued vide No.19/Misc./2012-13/EE(HQ) dated 6th June, 2016 in which it was reiterated that documents/reports required for investigation of the vigilance complaints should be submitted in time and any delay in sending the documents/reports will be considered as dereliction of duties.

DOPT as well as CVC have again recently issued instructions that Vigilance cases and disciplinary proceedings are to be completed in the shortest possible time giving the highest priority to this work and strict timelines have been set for disposal of vigilance cases.

However, it is observed that still some field offices are not complying with these instructions and the required reports and records were inordinately delayed from these offices. This has been viewed very seriously by MoUD and issued instructions that any such delays will be viewed very seriously against officers responsible for delay in future.

All field units are once again directed that the required reports and documents for investigation of vigilance complaints and completion of disciplinary proceedings be submitted in time as per the stipulated time schedules. Delay on any pretext as non-availability of files and other reasons will not be considered as proper. Ensure strict compliance of these instructions.

(Abhai Sinha)
Director General,
CPWD.
