

IISER-T/Admn/Gen/060

22 June 2018

This is to convey my deep appreciation to Shri. K Mohammood , Executive Engineer, IISER Project Division-I, CPWD for his commendable contribution towards construction of permanent campus of this Institute.

Shri. K Mohammood has taken over charge as Executive Engineer, IISER Project Division-I on December 2014 when the works towards development of permanent campus of IISER TVM was entrusted to CPWD subsequent to termination of the contract awarded to a private firm.

Initially , Shri. K Mohammed was alone posted as Executive Engineer for the IISER Project Division-I. The assessing and executing the works which were half done by the previous agencies was a herculean task and with his consistent and dedicated efforts Shri. K Mohammood had assessed the volume of work done by previous agencies and carryout the estimation for the balance works. In the absence of any subordinate staff posted, Shri. K Mohammed has single handedly completed the entire planning and has invited and finalized the tenders with in the given time frame which was very crucial for the commencement of the works pertaining to this Institute.

Due to his vast experience in executing projects of similar magnitude, he was able to rectify the design faults by the architectural consultants, in accordance with the site topography which was beneficial to the Institute in both additional space availability and in terms of overall cost.

Works worth value of Rs. 454,32,45,699/- consisting of construction of academic blocks, administrative buildings, research labs, residential building, hostels, roads etc at this Institute has been awarded through CPWD during his tenure as Executive Engineer. All the works assigned were either completed within the given time schedule or are progressing well as per the given schedule.

This Institute will always be indebted towards his contribution extended during the most difficult phase of the revamping of our campus construction activities and would like to highly appreciate the same. This letter of appreciation may please be put in his service records .

(Prof. V Ramakrishnan)
