

File No.10/V-11/A-99/2013-VS-1
Government of India

Office of JS & CVO
Vigilance Unit, CPWD
Nirman Bhawan, New Delhi-110108

No. DG/VIG/ 19

Date: 26/6/2015

Subject:- Instructions regarding submission of replies/comments on the complaints, sought by the vigilance unit.

During the investigations of the complaints in the vigilance unit, it has been observed that Chief Engineers of the field units while submitting their replies/comments to the vigilance unit, don't carry out independent investigation at their end to ascertain the real facts about the allegations made in the complaint instead they forward the report of the subordinate officers to the vigilance unit of CPWD. Superintending Engineers also don't carry out any investigation at their end and rely on the reports of same EE/AE against whom allegations are made in the complaint. The independent investigation by the field officers like CE/SE should invariably be carried out, without involving the EE/AE against whom the complaint/allegations are made. It is the responsibility of supervisory officer to ensure integrity of the subordinate officers under his control.

It is a binding principle in vigilance investigations that all complaints received from vigilance should be thoroughly and independently investigated by senior officer of the rank of SE and above only.

It is therefore enjoined upon all the senior officers i.e. CEs/SEs to submit their report to vigilance unit after ascertaining the facts based on independent investigation and without involving the officers against whom allegations/complaints has been made.

This issues with the approval of CVO, CPWD.
