CIRCULAR

Sub: -Conveying observations of CTE/CVC to contractors- Regarding.

1. Observation made by CTE in one work was communicated by field units to contractor in which they have mentioned the reference of CTE. This has been viewed seriously by CTE as it may weaken the case in litigation and such practice must be avoided.
2. The observations are made by CTE/CVC on merits and hence should be communicated to the contractors as contractual correspondence rather than merely passing on the observations of CTE/CVC, Q.C., CAG and senior officers to contractors in a mechanical manner.
3. It is therefore, to be strictly ensured by all field units that no reference of CTE/CVC is made by them while communicating their observations to the contractors.

This issues with the approval of CVO, CPWD.
