

Directorate General
(Vigilance unit)
Central Public Works Department
Nirman Bhawan, New Delhi-110 011

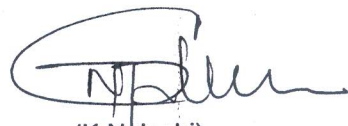

No.DG/VIG/ 1

Dated/0 July, 2013.

While examining report of a street light work recently inspected by the CTE it has been observed that items pertaining to bracket of street light fittings were not specified in the Agreement in clear terms of single or double over hung. Though later on it was revealed that brackets were provided for the work as per scope of the estimate sanctioned and observations of CTE were dropped. However inclusion of vague item in the Agreement resulted into generation of unnecessary correspondence and wasting lot of time, resources and money, which could have been easily avoided.

The matter has been viewed seriously by CTEO. It is directed that the provisions of the CPWD Works Manual 2012, Section 15 of Chapter III, regarding preparation of tender document and Section 4 regarding preparation of detailed estimate should be strictly followed for call of tenders. All the Chief Engineer's are requested to bring this into the notice of all field units under their control for compliance.

This issues with the approval of DG,CPWD.
